INTRODUCTION

Homelessness and hardship are complex and multifaceted issues that affect individuals and families from all walks of life. They are particularly challenging during the winter months, when the cold and inclement weather can exacerbate the difficulties that these individuals and families face. Immanuel Cares Global, a nonprofit organization, recognizes the importance of addressing these issues and presents The Care Hub, an epicenter of care that addresses the needs of individuals and families experiencing homelessness and hardship.

Immanuel Cares Global is a humanitarian organization that is dedicated to serving and empowering vulnerable communities around the world. Our organization was founded with the goal of providing essential resources and support to individuals and families who are facing difficult circumstances. The Care Hub is one of the organization's main initiatives, aimed at providing access to essential resources such as food, clothing, health-care screening, spiritual and mental health support.

THE CARE HUB

The Care Hub was designed to be a comprehensive and holistic initiative aimed at highlighting homelessness and hardship in the winter. It is an ecosystem of relief that touches on the domains of food, clothing, health-care screening, spiritual and mental health support which are not always accessible to those experiencing homelessness and hardship. The goal of The Care Hub is to provide a safe and welcoming environment where individuals and families can access essential resources and services, and receive support and care. It's main aim is to let those in need know that they are seen and cared for.

In August 2022, over 55,000 persons experiencing homelessness including 17,680 children slept each night in a New York shelter.

Partnership Resources

In this ebook, we will explore the various aspects of The Care Hub, including the services and resources provided, and the impact of the event on the community. We will also share stories of individuals and families who have benefitted from The Care Hub, highlighting the importance of addressing homelessness and hardship in our community. The Care Hub is a model for other organizations and communities looking to address homelessness and hardship.

DAY OF EVENT

The Care Hub was a one-day event that aimed to provide a comprehensive range of services to individuals and families experiencing homelessness and hardships. It was held on January 17th, 2023 at 800 Barretto Street Bronx NY 10474 and began at 12:00 pm and ended at 4:00 pm. The event was open to the public and was advertised through local community organizations, churches, and shelters. The Care Hub was staffed by our team of dedicated volunteers who were committed to providing a compassionate and caring environment for all participants. Upon arrival, participants were greeted by a team of volunteers who provided them with a welcoming and informative orientation. They were then directed to the different areas of the event where they could access the services and resources available.

The Care Hub was divided into different stations, each focused on a specific need. The stations included food and clothing distribution, health-care screenings, spiritual and mental health support, and information and referral services. Each station was staffed by trained professionals who were available to assist participants and provide them with the support and resources they needed.

Food + Clothing

One of the main focus of The Care Hub was providing food and clothing to those in need. Food insecurity and lack of appropriate clothing are two of the most pressing issues faced by individuals and families experiencing homelessness and hardship. Immanuel Cares Global recognized this and made providing food and clothing a priority for The Care Hub.

The food and clothing provided not only met the basic needs of participants but also helped to improve their overall well-being and quality of life. The generous contributions of local churches and community members made it possible to provide these essential resources to those in need.

Health Care Screenings

The Care Hub provided health-care screenings for participants, with medical professionals on hand. They provided basic health screenings and information about available resources for further medical care. Such screenings were conducted in a private and secure area, and participants were able to discuss any concerns or issues they had with the medical professionals. The screenings included checking, vital signs, blood pressure, temperature, STI testing, and free vaccination was provided for all ages.

The health-care screenings provided at The Care Hub were crucial in ensuring that participants had access to the basic health care screenings they needed. Participants were able to receive medical attention for any underlying health issues, and the medical professionals were able to provide them with information about available resources for further medical care.

Spiritual and Mental Health Support

The Care Hub recognized that addressing the spiritual and mental health needs of individuals and families experiencing homelessness and hardship is just as important as addressing their physical needs. Immanuel Cares Global, the organization behind The Care Hub, understands that these individuals and families may be dealing with a range of emotional and psychological issues, such as stress, anxiety, and depression, as a result of their difficult circumstances.

To address these needs, The Care Hub provided spiritual and mental health support for participants. Pastoral care and counseling services were available throughout the event, providing a safe space for individuals to discuss their struggles and receive support. The pastoral care and counseling services were provided by trained professionals who were able to provide emotional and spiritual support to participants. The sessions were designed to provide a safe and confidential space for participants to talk about their struggles and receive emotional support. The pastoral care and counseling services were also designed to provide participants with the tools and resources they needed to cope with their difficult circumstances, and to improve their overall emotional and spiritual well-being.

The counseling services provided at the event were also designed to address the mental health needs of participants. Trained counselors were available to provide individual and group counseling services, as well as provide information about available resources for ongoing support. They were able to provide support for a variety of mental health issues such as stress, anxiety, and depression, and provide guidance and support for coping with difficult situations.

Care Packages Distribution

Immanuel Cares Global partnered with Bless It Bag® a public charity whose mission is to give people a simple way to help improve the homeless population's quality of life. We handed out "Bless it Bag" care packages to those who visited the event resources as cherry on the top for stopping by The Care Hub. These care packages for (men and women) included: 4 non-perishable food items, a change of underwear, a change of socks, roll-on deodorant, 2 hand-sanitizer wipes, a pack of flushable wipes, a tissue pack, chapstick, body lotion, tooth brush, toothpaste, comb, a full wash cloth, sunscreen packet, a bar of soap and other items which are everyday basic necessities.

To Our Amazing Partners!

[We thank you!]

In 2012, Einstein medical students established H. O.P.E. (Homeless Outreach Program at Einstein) as a student club under its new name. They expanded HOPE's offerings to provide services that would be helpful to homeless individuals in the Bronx.

Our mission is to prevent HIV/STIs, underage drinking, and substance use through community prevention education, harm reduction resources, and referrals to social/health services to ensure safer cities and healthier futures for Bronx youth ages 13-24. By addressing historical health injustices for Black and Latinx Bronx communities, we envision breaking barriers of health disparities for the upcoming generation of changemakers so that they are empowered to change the narrative of their lives.

OCOH is a new kind of collaborative partnership among communities in New York and other states around the country. With leadership from the Community Engagement Research Program at the University of Florida, our partnership team includes: Trusted members of communities who provide front-line health services, from health education and referrals to resources

The Affordable Connectivity Program(ACP) is an FCC program to help families and households struggling to afford internet service. This new benefit will connect eligible households to jobs, critical healthcare services, virtual classrooms, and so much more. A household is eligible for the Affordable Connectivity Program if the household income is at or below 200% of the Federal Poverty Guidelines.

VIP Community Services offers comprehensive and integrated medical, behavioral health, housing, and wraparound services that are equitable and promote positive outcomes for the people served, their families, and the community. We're committed to making health care accessible to the community by taking advantage of our location in the Bronx and sending outreach workers into the community, to visit local businesses, attend events, conduct home visits, and more.

A ecosystem of relief.

CLOSING REMARKS

Immanuel Cares Global "The Care Hub" was a successful event that provided essential resources and services to those experiencing homelessness and hardship in our community. The event achieved its aim by providing a safe and welcoming environment by showing participants that they are seen and cared for. The Care Hub focused on food, clothing, health-care screening, spiritual and mental health support which was critical in addressing the needs of those in the community that we served.

The event was made possible by our generous donors, partners and community members and the dedication of our team of volunteers. Our donors contributed over 200 coats and winter gears, we served over 130 people in the community who also benefitted from the resources of our partners and distributed over 100 meals. Together we made a major impact in the Hunts Point community and are excited for more opportunities to serve.

In conclusion, The Care Hub's success was evident in the positive impact it had on the community. Participants reported feeling more hopeful and empowered after the event, and many expressed gratitude for the support and resources they received. Therefore, we concur that The Care Hub was successful in addressing the needs of individuals and families experiencing homelessness and hardship in the community, and we hope that it will continue to serve as a model for other organizations and communities looking to address these issues.
